

## PRESS RELEASE

*Helmut Fischer Global is Moving Ahead*

### **Announcement of New Chief Executive Officer for Helmut Fischer Global**

*Sindelfingen, Germany, 14<sup>th</sup> November 2019. On 24<sup>th</sup> October 2019, Helmut Fischer Global announced the appointment of Dr. Martin Leibfritz as Chief Executive Officer. The change in leadership reflect Helmut Fischer Global's focus on innovation and strengthening operational effectiveness. Dr. Martin Leibfritz has been working as Chief Technology Officer in Helmut Fischer Global for research and development as well as operations since the beginning of May 2019.*

Prior to his tenure at Helmut Fischer Global, Dr. Leibfritz proved himself as an expert in high-frequency technology in the field of industrial metrology. Dr. Leibfritz studied, graduated and worked at the Institute for High Frequency Technology at the University of Stuttgart. Afterwards, he functioned in multiple areas as a development engineer in an established electronics company, Rohde & Schwarz, in Munich. In 2011, he was promoted to development manager for vectorial network analysis at the same company. A total of 32 patents were filed through the course of his work at Rohde & Schwarz.

When asked about his thoughts about Helmut Fischer Global, Dr. Leibfritz said, "Above all, respect for a challenging task, the responsibility for our employees and the development of an impressive life's work. I am confident that we will continue to be successful in the future. We know innovation and we are a fantastic team."

"Dr. Martin Leibfritz is not only a symbol for the younger generation, but also for the dynamic that has always characterized our company. We are confident that we will be able to continue growing our business under Dr. Leibfritz's leadership," commented company founder, Helmut Fischer.

Dr. Leibfritz takes over from Dr. Wolfgang Babel. "We would like to thank Dr. Wolfgang Babel for his stellar leadership over the past years, and we wish him all the best in his future endeavors," said Fischer.
